(DATE EXTENDED)

I. PROJECT OVERVIEW

CPB is requesting proposals from firms to provide strategic advice to CPB to advance and support CPB's American Graduate initiative. *American Graduate: Let's Make it Happen* ("American Graduate") is a multi-year public media initiative, supported by the Corporation for Public Broadcasting (CPB), to assist public media television and radio stations and national public media and partner organizations in identifying and implementing solutions to address the high school dropout crisis in their local communities, encouraging students to finish high school and reinforcing the importance of education beyond high school. Additional information about the American Graduate initiative may be found at: <http://www.americangraduate.org>.

The advisor will be expected to provide strategic advice to CPB in order to assist CPB in planning and structuring the American Graduate initiative's ongoing response to the high school dropout crisis. CPB expects to retain the firm for a one year term, renewable for two consecutive one year terms, at CPB's discretion. While the contract for services will be on a fixed-fee basis for each term, the project is expected to require up to forty hours of work per month, with some months requiring more and some less effort.

II. ABOUT CPB

The Corporation for Public Broadcasting (CPB) is a private, not-for-profit, non-governmental corporation authorized by Congress in 1967 through amendments to the Communications Act of 1934. CPB is exempt from taxes under Section 501(C)(3) of the Internal Revenue Code. CPB promotes non-commercial public telecommunications services (television, radio, online, and digital) for the American people. CPB also provides financial support and a variety of services to more than 1,300 locally owned and operated public television and radio stations nationwide. Such support helps guarantee universal access to public broadcasting's educational services and programming, and ensures that stations can exchange program materials through a national system of interconnection.
